## **DETAILED ACTION**

### **CLAIMS PRESENTED**

Claims 1-12, 14, 16-20, 30-56 are presented.

### ***Response to Arguments***

Applicant's arguments with respect to claims have been considered but are considered to cause new ground(s) of rejection.

Throughout the Applicant's amendment, Applicant states that the newly added elements of the claims were "inherently present" in the original claims. What does Applicant mean? Does Applicant wish to state that the original claims were meant to include these elements? If so, then were the original claims misunderstood by the Office? While the patent law cited by Applicant (which Applicant terms "Festo II") may be some guide, Applicant's arguments have created a genuine confusion as to what are the boundaries of the claims' meanings. Because "inherency" is also an issue that affects rejections under 35 USC 102 (which was given in the previous Office Action), this issue must be resolved before the prosecution of the claims can progress. Applicant is respectfully requested to explain away or otherwise respond to this issue.

### ***Non-Finality***

Because of the previous Office Action could have been more explicit, the equity of the situation calls for non-finality of this Office Action.

Art Unit: 2134

## **CLAIM REJECTIONS**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-12, 14, 16-20, 30-56 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As also noted in the previous sections, Applicant's arguments have created a genuine confusion as to what are the boundaries of the claims' meanings. Throughout the Applicant's amendment, Applicant states that the newly added elements of the claims were "inherently present" in the original claims. What does Applicant mean?

### ***Conclusion***
